

Q. M. J.
wherein, among the first electromagnetic clutch and the second electromagnetic clutch, the electromagnetic clutch operated when turning right comprises an armature placed on the right side of the respective coil, and the electromagnetic clutch operated when turning left the vehicle comprises an armature placed on the left side of the respective coil. --

REMARKS

In response to the Examiner's requirement for an election of species, Applicants hereby elect to have further prosecution in this application be directed at this time to Species I, as shown in Fig. 2 and recited in claims 1-11 and 23, without traverse.

Applicants respectfully submit that claim 23 is generic to Species I and II because claim 23 reads on both Figures. Applicants reserve the right to file divisional applications.

Applicants therefore respectfully request timely consideration on the merits of elected Species I.

In the event this paper is not considered to be timely filed, the Applicants respectfully petition for an appropriate extension of time. Any fees for such an extension, together with any additional fees that may be due with respect to this paper,

Application No. 10/041,586
Attorney Docket No. 107348-00191

may be charged to counsel's Deposit Account No. 01-2300, **referencing docket number 107348-00191.**

Respectfully submitted,

ARENT FOX KINTNER PLOTKIN & KAHN PLLC
